

July 1, 2014

To all OASAS providers:

The Justice Center is providing a Mobile Incident Reporting Application (“app”) for use on all Android devices. The app may be downloaded free from Google Play through this link on the Justice Center’s website: <http://www.justicecenter.ny.gov/node/554>. The website also provides a Quick Tour of the app features.

This app should be used to report “significant incidents” which have the potential to harm the health, safety or welfare of a service recipient.

Reports involving allegations of suspected abuse or neglect should continue to be called into the VPCR hotline at 855-373-2122. If an individual is in immediate danger, the reporter should first call 9-1-1 and then dial the hotline to make a report.
